

YOU SPOKE. WE LISTENED.

Clothing sizes. We heard your many concerns with our clothing size categories, so we're going to try something new for Spring 2020!

We're hoping the new simplified size categories at **Just Between Friends Western Mainline, Reading, Lancaster and Lower Bucks** will help you place your clothing in the correct size category at consignor drop off, and that shoppers will scoop up even more of your goods!

JUST BETWEEN FRIENDS

Any clothing size categories that *previously listed a range* have been replaced with a **SINGLE SIZE NUMBER.**

AND 0-3 MONTHS?

THE SAME RULES STILL APPLY: Clothing should be placed on the racks by the **SMALLEST** size listed on the tag. Any preemie or newborn clothing should be placed in 0 months, as well as clothing that lists the starting size as 0 months. If your tag says 10-12, the item goes in size 10. Size 7/8, the item goes in size 7. See where we're going here?

We can't help with the way the various manufacturers decide to size their clothing (we're looking at you, YXS, YS, YM, YL & YXL!), but this method will cut down your sorting and search time. When tagging clothing, if your item has a letter size, use your best judgement or refer to the brand's sizing guide for the best number size, and write the manufacturer's letter size in the description.

Shoppers will (as usual) know what sizes in what brands fit their child best!
